

Contribution of Scientific Study to Making a Practical LCS Policy -Panel Discussion-

1. If we cannot go to LCS,...
2. LCS offers higher QOL with less energy demand and lower-carbon energy supply
3. LCS needs good design, early action, and innovations

3 Points of Panel Discussion

LoCARNet:

Research + Policy + X (e.g. business) =>
Make it happen!

1. What kind of “research” do you need to create practical LCS policy based on long-term perspectives?
2. What kind of “research” can you provide for LCS policy making?
3. What are our actions now?
